

PRODUCT ASSESSMENT SHEET

**Excedo 2.31 Sterilising Fluid 2 x 5ltr
J1925**

What is it

This unique fluid is suitable for sterilising items from the kitchen through to sluice area and to medical departments of your establishment.

When to use it

Designed for sterilising items from the kitchen through to sluice area and to medical departments of your establishment.

How to use it

Soiled surfaces must be cleaned thoroughly prior to application. For kitchen disinfection, use on work surfaces, walls, floors, chopping boards, containers, dispensing nozzles and utensils, applying a 1:125 solution.

For general disinfection in the healthcare setting, use a 1:24 solution.

For surfaces contaminated with blood and bodily fluids use a 1:4 solution. Always ensure that any surface is fully wetted/ immersed. Leave for 15 minutes and rinse.

This product passes the requirements of EN 1276:2009 and EN 13697:2015, at dilution 1:24 with 5 minutes contact time at 20°C.

First Aid Measures

Inhalation

Unlikely route of exposure as the product does not contain volatile substances. If spray/mist has been inhaled, move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.

Skin Contact

Wash with plenty of water. If skin irritation occurs: Get medical advice/attention immediately.

Eye Contact

Rinse cautiously with water for at least 10 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Consult an ophthalmologist immediately if the symptoms persist.

Ingestion

Rinse mouth. Drink plenty of water. Do NOT induce vomiting. If symptoms persist, seek medical advice.
